IČ: 032 44 415

Declare under our sole responsibility, that the product:

EVSE FOR CHARGING STATIONS

Type:

Universal All-in-one 22kW DIN EVSE

Manufacturer: inChaNet s.r.o.
Production year: 2023, 2024
Production number: see nameplate
Description: Equipment for charging electrical vehicles by conductive coupling covered by this declaration is in conformity with the following relevant harmonized legislation of European Union.
This device is intended to be incorporated into the charging station. It is not a consumer product and it can not work as a stand alone device. It requires upstream fuse or breaker with a maximum value of 3x32A.
Notable features: RCD protection (30mA AC, 6mA DC), grounding detection, selectable charging current, serial data communication interface, current/voltage measurement

- Directive 2014/35/EU of the European parliament and of the Council
- Directive 2014/30/EU of the European parliament and of the Council
- Directive 2011/65/EU of the European parliament and of the Council

The following harmonized standards and technical specifications were used for the assessment, on the basis of which conformity was declared:

- ČSN EN IEC 61851-1:2020
- ČSN EN IEC 61000-3-11 ed. 2: 2020
- ČSN EN 61000-3-12 ed. 2: 2012
- ČSN EN 61000-4-2 ed. 2: 2009
- ČSN EN 61000-4-4 ed. 3: 2013
- ČSN EN 61000-4-5 ed. 3: 2015 + A1:2018
- ČSN EN 61000-4-6 ed. 4: 2014
- ČSN EN 61000-4-34: 2007 + A1: 2010

The product is safe under the conditions of normal and intended use. We have taken all the measures available to us to ensure the conformity of the products with the essential requirements of EU legislation.
